Sienná – Wa-Kei-Sei-Jyaku 和敬清寂

indiedockmusicblog May 25, 2023 6:36 pm

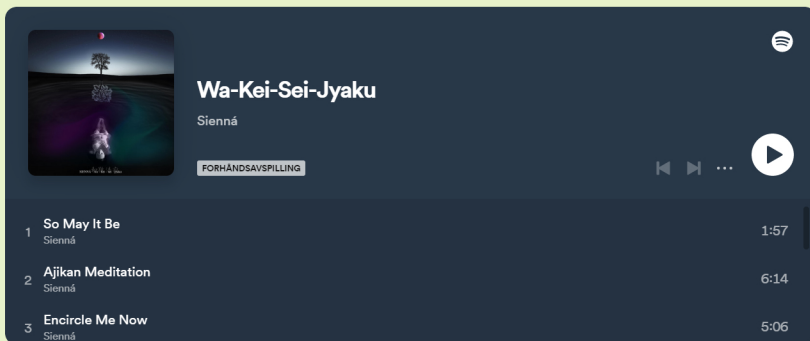

The sixth full-length album called 'Wa-Kei-Sei-Jyaku' by Kyoto-born and Oslo-based musician and producer Sienná was released on May 16. As an experimenter and representative of the electronic scene, Sienna has achieved recognition among fans of serious music.

Sienná's ability to successfully combine electronic and jazz, traditional and modern elements of Japanese music is perfectly reflected in her new work. The album 'Wa-Kei-Sei-Jyaku' consists of 9 tracks that open the door to a completely new space of creative freedom and enlightenment.

Sienná composes really catchy avant-garde musical compositions from improvisational moments and rhythms and hooks that make each track dynamic and impulsive. We must also note the cinematic component of this record, which paints images and pictures in our imagination, moving our imagination and inspiring us to think in a cozy room with a beautiful view from the window.

Listen to the album 'Wa-Kei-Sei-Jyaku' below on Spotify and immerse yourself in the aesthetics of progressive modern music from Sienná.
