By the-further / mai 16, 2023

In the ever-evolving landscape of music, a niche genre has emerged that captivates listeners with its avant-garde compositions, pushing the boundaries of sonic expression. Kyoto-born and Oslo-based artist Sienná, with her penchant for innovation and unconventional techniques, enters this category with her latest album "Wa-Kei-Sei-Jyaku 和敬清寂".

At the crossroads of art and technology, the artist craft soundscapes that sends us into unworldly planets. Through a diverse array of electronic instruments, synthesizers, and computer-generated sounds, this sonic pioneer create an outstanding music.

Embracing dissonance, unconventional rhythms, and unexpected harmonies, "Wa-Kei-Sei-Jyaku 和敬清寂" also offers organic colors that sound like traveling through nature. Sienná challenges traditional notions of melody and structure.

The album not only engages our auditory senses but also invites introspection, prompting us to ponder the relationship between technology and creativity. It acts as a sonic portal, transporting us to unknown places, where imagination and innovation intertwine.
